

Vermont's building Energy Codes

The Vermont Residential Building Energy Standards (VT-RBES) and Vermont Commercial Building Energy Standards (VT-CBES) are minimum standards of energy efficiency that apply to all new residential construction, renovations, alterations, and repairs in Vermont.

Beginning July 1, 2013, a completed and signed Energy Code Certificate MUST be recorded with the Jericho Town Clerk before a Certificate of Occupancy can be issued by the Planning and Zoning Office.

The Energy Code Assistance Center provides toll-free assistance at 1.855.887.0673.

Requirements for residential (RBES) and commercial (CBES) are noted on the Public Service Department website:

- [VT Residential Building Energy Standards](#)
- [VT Commercial Building Energy Standards](#)

Efficiency Vermont offers technical assistance and incentives for projects that seek to meet a level of energy efficiency above the Energy Code.

- Phone 888-921-5990 or visit [Efficiency Vermont](#) with any questions about compliance.
